Continuation of Substance of Interview including description of the general nature of what was discussed: The applicants were requested to determine the most recent amendment to the claim for priority, and the most recent amendment to the abstract. The applicants stated they would respond with the paper dates of the most recent claim for priority and abstract amendment. The applicants were requested to correct antecedent basis for "said metal or metal ion" in claim 1703, and to point to written description support for claim 1784 drawn to a nuclease assay. The applicants were informed that no rejections for double patenting were contemplated in the instant application. .
